The NSSO, in the Ministry of Statistics and Programme Implementation (MOSPI) has been conducting nation-wide surveys on different socio-economic subjects on regular basis. The MOSPI minister D.V. Sadananda Gowda stated that, in the 76<sup>th</sup> round ( July 2018 – December 2018 ), NSSO planned to conduct an all-India survey on drinking water, hygiene and housing conditions and disability. This survey will show, how many people lack access to drinking water. Water is a Life! Govt. will definitely take action to provide drinking water in every household. But it is also our responsibility to keep available water resources clean and to save water.
