

Q. Why one should attend the “Paid” training when the same content is offered in “Free”

1

A. The “Free” Training is just PPTs, there is no instructor, in “Paid” it’s instructor driven. The Free one is a rapid content, however, the “Paid” one is a detailed, discussion based. Live, face-to-face doubts can be resolved. In addition, we are also offering 1:1 Idea Assessment who attend our “Paid” trainings.

Q. Why have we shifted from a 4-day Model to 10-Day Model ?

2

A. Earlier, in 4-day model, we (as instructor) were not getting enough time to discuss about concepts in details, and they need to get discussed, as an entrepreneur is starting his business has many points unclarified in his mind. He is consuming so much material through the internet, that his mind is filled with a huge amount of random material. He needs further filtration, not just information. For this, he needs TIME. Hence we have included 10 sessions of 1 hour each & spread over 2 weeks

Q. Is the Recording provided ?

3

A. Yes. Everyday's recording is provided there itself on Whatsapp Group. But kindly note that it's just a facility to re-learn. This course is not an E-learning course where you learn through recorded sessions. Recording of personal QnA not shared on account of retaining privacy.

Q. Is Mentoring different from this ?

4

A. Yes. Training Course focuses on offering a complete overview of this business in 2 week's time. And it's a group event. Whereas Mentoring is a 1:1 event, and focuses on the participant's individual plan

Q. Why are not there any pre-recorded Trainings ?

5

A. Pre-recorded Training won't have a real-time updated version. We keep on sharing latest, updated content in every training.

Q. Are these trainings Instructor-led ?

6

A. Yes, these are instructor-led

Q. Why is every training Live only ?

7

A. Live training provides a unique experience to the learner to interact with a real time trainer, and for us, it's an opportunity to clarify doubts face-to face.

Q. How about further support ?

8

A. For training attendees, there is a special dedicated 1:1 assessment service provided for free for 1 session, through that the attendee can decide his further direction for business. In addition, there is a special whatsapp group of the participants. If someone wants to take his dream forward, he/she can also opt for our Mentoring Service which is a perfect hand-holding, to setup a successful business venture.

Q. What if someone is keen to learn, but can't spend this much time ?

9

A. True Learning Happens when all major doubts get cleared with reference to the information gathered, from an expert. Hence it is recommended that you need to invest this time to save wastage in future

Q. What if someone is ready with his costing, and business plan & just needs additional validation ?

10

A. In such a case, take our Aqua Business Metrix Service, that's sufficient. Send us an email.
